PROJECT EXECUTION
PROCUREMENT & REPORTING
CONSTRUCTION SUPERVISION

PROFESSIONAL MANAGEMENT

Welcon Technologies has the skills and experienced personnel to manage your project needs from Concept Phase through to Final Handover, or to enter at any phase based on your project's requirements.

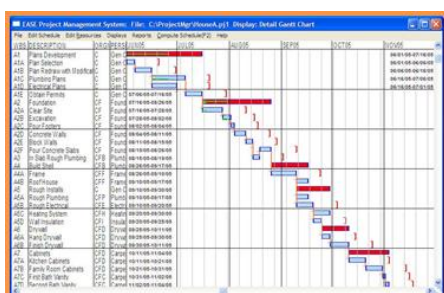

We can assist with Options Analysis and Capital Cost Estimates, and to provide recommendations for the most cost-effective solution for your new plant or upgrade.

Your project is unique and has specific requirements for success. We have the flexibility to either take the lead as Project Managers, assist as Client Representative or perform complete Turnkey Contracts.

We follow the Australian Institute of Project Management principals and use these practices to achieve the goals as set out by the client.

Our people are skilled in working across the entire platform of project management requirements and fundamentals such as:

- Time
- Cost
- Quality
- Reporting
- Communications
- Tendering
- Procurement
- Handover

PROJECT ADMINISTRATION

***“Project Managers
you can rely on”***

We have the experienced and qualified personnel who can respond to your required level of support for successful set-up and implementation of all projects.

Our capabilities include:

- Project Evaluation
- Investigation of Options
- Estimating and Cost Analysis
- Planning / Scheduling of Work
- Liaison with Stakeholders
- Hazard Evaluation / Risk Assessment
- Change Management
- Requisition and Order Processing
- Tender Evaluations
- Construction Supervision
- Commissioning Supervision
- Documentation Control
- Handover and Closeout
